What's new in Fifa 22:

- **New features and game modes:**
 - **Customizable kits:** Take a closer look at the customizability that comes with every new kit in FIFA 22. New players have now a jersey customization system where you can further customize their kits and make your team look unique on the pitch.
 - **Passing styles:** Get your teammates the ball, find the right play, make the right pass and introduce more realism and personality with your passing style. Learn to recognise where to make your passes with visual prompts and receive accurate instructions for the new "Read Like A GK" feature.
 - **Distributed Pride system:** Now we only need to score one-two goals, every team and every player has the opportunity to bring home that coveted Pride bonus. You'll earn more in-match Pride as you improve your performance. The new distributed Pride boost system will now also work for an unlimited number of matches, giving you more Pride while playing short games and long ones.
 - **Eagles system:** Eagles will be more influential in the new game modes such as 'Rewind 18 Moments.' Now with a larger player interaction radius (max. 4.5 metres), your Eagles' intelligence and command will appear more often through the game. In 'Rewind 18 Moments' ('Rewind 18 FTS' for fans of Playoff Mode) the Eagles will focus on their immediate surroundings and body positioning to give you the edge against other club's players as you take over the stadium and complete the mission.
 - **New Player Ratings:** This is the new way to rate your player's performances in football. In FIFA 22 we have introduced the new Player Ratings to reflect these in-game metrics and grant your favourite players proper individualised guidance.
 - **New Practice Mode and new Online Training Ground:** If you just want to work on your skill set in the comfort of your own home, then we recommend you try the brand new Practice Mode in FIFA 22. Enhance your training sessions by interacting with other players and using visual guidance to bring your skills up to speed. Train in the comfort of your very own Online Training Ground and practise with squad mates of your favourite EA SPORTS FIFA team.
