[Bacterial resistance to antibiotics: the key to personalized medicine?]. As is widely known, bacterial resistance to antibiotics is increasing. In the "grey zone" between necessary and unnecessary use of antibiotics, the phenomenon of resistance is spreading beyond its therapeutic level. Such resistance cannot be cured by antibiotics, which were often initially thought to be the only alternative. But a new vision of personalized medicine based on the discovery of the genomic determinants of resistance is coming. It is based on a combination of advanced drugs, new technologies and a fundamental knowledge of the biology of infectious bacteria, which has not been possible before the genomic era. What's new in Fifa 22:

- **Enhanced Targeting Controls.** FIFA's new intuitive controls make attacking and defending significantly easier. From your right thumbstick, you'll control your player's movement, and your left thumbstick controls their skills. Adapt your play style to your favorite player - superior ball control, accurate long shots, and more. Master the art of goalkeeping thanks to your goalkeeper's reactive natural mechanics and accurate dives for the ball. Master the goalkeeping position with the Precision Diving System, which offers players on your team the freedom to dive and dive more in different game modes.
- **New Faces.** A new generation of top superstars will come alive on the pitch, including David Alaba, Buffon, Wayne Rooney, Neymar Jr., and Neymar.
- **It's our most realistic transfer market for a FIFA game.** The implementation of a more flexible transfer system allows you to easily fulfil your contractual obligations.
- **FUT 23 Mode.** In FUT 23, you can play digital collectible players on your team, and then assemble better and better squads as you progress.
- **New Play Progression System.** This feature is designed to challenge players as they progress in the career mode. With advanced characteristics, this system encourages positional play to complement the offensive and defensive strengths of your squad.
- **Bigger Carriageways.** Making its debut in FIFA 22, you'll feel even more immersive when your team battles in the pitch. More of the pitch lies within the player's range of sight, giving you a greater visual perspective on the match.
- **Matte surfaces are back,** and they offer more realistic lighting and create a different visual experience.
- **New Special Abilities.** In FIFA 22, players can use animation set-ups in their Tactical Draw system, giving you more control over how you play.
- **Agent Analyser .** This feature delivers the most authentic FIFA statistics in-game. Using machine learning, the tool

analyzes dozens of unseen attributes of each player for every in-game statistic.

- **The best off-the-ball game AI yet. Be the most**

EA SPORTS FIFA 22 delivers a first-of-its-kind football game where players can call their own fouls and control their teams in the truest, most authentic and meaningful way. Featuring new ways to control the ball with dribbling, switching, and more ways to connect, every controlled play in FIFA 22 is a living, breathing experience that can be adapted with just one touch. With all new Coach Impact, AI that identifies your play calls, attention to detail, ball physics that adjust when players move off the ball, and elite goalkeepers, FIFA 22 delivers a football game that nobody will forget. FIFA Player Ratings - How to control your players in FIFA 22 As in real life, players will gain experience as they play, and will improve their ability to dribble, score, pass, shoot, receive and defend. Players can have attributes that are raised or lowered based on their games, which raises and lowers their ability to perform specific actions. These attributes will grow by game-day, and some of the more important ones include: - Physical- One or two of the Physical Attributes can be raised or lowered at any time. - Stamina- The Stamina Attribute can be increased or decreased by playing games. - Technique- The Technique Attribute can be increased or decreased by playing games. - Creativity- The Creativity Attribute can be increased or decreased by playing games. FIFA 22 also features a brand new Managerial section. Like Control Points in other modes, Season Challenges will allow the players to compete in Training Mode for points that are awarded to your club. These challenges are divided into Season Challenges, with four, then six, then eight-month Cups. A Cup will begin with a predetermined number of games, and players can play as many or as few as they like before earning points based on a point total for each of those matches. Another new feature for FIFA 22 is Player Tagging, a technology for exchanging data among players. Players can tag any other player on the field, who can then return this player's data after the match. Players can also assign an avatar to their friends, and may tag them to review their profile. Players will be able to assign their own avatars to others, and will also be able to assign their own body types to their avatars. Other new and improved features include: Tackling Tutorial- Assign players specific
